The Town Board ask that all Town residents check on their driveway culverts and make sure they are in working order. It is **the property owner's responsibility** to maintain and replace a failing culvert. So, if it is rusting out, gravel or ground is filling up the culvert or the water flow is blocked in any way, please clear the culvert and replace as needed.

Also, as we are coming to the end of winter, please remember to NOT push snow across the road, making a pile on the shoulder of the road. This is dangerous to the plow drivers and is a roadside hazard.
